### The Defender Reha Car and Booster Seat by Thomashilfen

allows children with special needs 360 of impact protection.

The head, trunk and thigh supports, combined with our unique accessories offer many positioning options. Accessories have been crash tested and approved by Transport Canada and include lateral trunk supports, footrests, seat wedge, abduction block and table.

The Defender Reha Car Seat allows for LOTS of growth and can easily be converted to a booster seat. Pair with a turning plate to make transferring larger children in and out of the car a BREEZE!
